 Portfolio: <https://chandana-bhat-portfolio.vercel.app/>

PROFESSIONAL SUMMARY

Motivated computer applications graduate with a strong foundation in Python, Java, and web development. Passionate about building real-world applications and exploring AI-driven solutions. Developed projects like a Food Security Pattern Analyzer using machine learning and interactive web interfaces. Quick learner with a problem-solving mindset and a keen interest in full stack development.

EDUCATION

Master of Computer Applications (MCA)

PES University, Bengaluru (2025 – Present)

Bachelor of Computer Applications (BCA)

JSS College for Women, Mysore (2022- 2025) CGPA: 9.08

Pre University (PCMB)

MES PU College, Sirsi (2020- 2022)

EXPERIENCE

Machine Learning & Generative AI Intern

Archelos Intelsense Technologies, Bengaluru

- Worked on machine learning models and explored generative AI techniques
- Assisted in data preprocessing, model training, and evaluation workflows
- Gained hands-on experience with real-world datasets and AI applications

PROJECTS

Food Security Pattern Analyzer (Python, ML, Streamlit)

- Built ML model to predict crop production using real-world datasets
- Performed preprocessing, feature engineering, and model training (Random Forest)
- Developed interactive web app using Streamlit
- Enabled real-time agricultural insights and predictions

Portfolio Website (*HTML, CSS, JavaScript*)

- Designed a responsive personal portfolio website
- Showcased projects, skills, and contact information
- Focused on UI/UX for better recruiter engagement

Enhancing Network Security (*Networking, Cybersecurity Basics*)

- Implemented basic security concepts like firewalls and intrusion detection
 - Analyzed vulnerabilities and applied mitigation techniques
 - Simulated secure network configurations
 - Studied secure communication and data protection methods
-

CERTIFICATIONS

- AWS Cloud Essentials – AWS Foundations
 - Machine Learning and Generative AI – Archelos Intelsense Technologies
-

TECHNICAL SKILLS

- Languages: Python, Java
 - Web: HTML, CSS
 - Tools: GitHub, VS Code
 - Concepts: Data Structures, Machine Learning Basics
-

ADDITIONAL INFORMATION

- Strong interest in AI/ML and full stack development
- Good communication and teamwork skills
- Continuous learner exploring modern technologies
